You've got what it takes but it will take everything you've got.

You've got enemies? Good! It means you've stood up for something sometime in your life.

You've got a new story to write and it looks nothing like your past.

You're too creative to be broke!

You're the only thing better than morning coffee.

You're not rich until you can fly on a private jet without posting a picture.

You're never too old to start a new adventure.

You're born to be real, not to be perfect.

You're always one decision away from a totally different life.

You're allowed to scream. You're allowed to cry. But do not give up.

You'll never influence the world by trying to be like it.

You'll find an incredible amount of freedom when you learn not to take things personally.

You'll be amazed at what you attract after you start believing in what you deserve.

You win some. You learn some.

You will search for me in another person but you will never find me. I promise.

You will never understand what your parents sacrificed for you until you have kids of your own.

You will never own the future if you care what other people think.

You will never meet a hater doing better than you.

You will never have this day again so make it count!

You will never find time for anything. If you want time you must make time.

You will never be satisfied with anything less than the highest you can attain.

You will make it through this and it will make you stronger.

You were not born to just go to work, pay bills and die.

You were meant for great things.

You were born to be a winner. You must plan to win, prepare to win and expect to win.

You were born an original. Don't die a copy.

You want to build a big following? Keep learning, Keep teaching, Make people feel special.

You think knowledge is expensive? Try stupidity.

You only live once but if you live it right, once is enough.

You only fail when you stop trying.

You never get a second chance to make a first impression.

You need to be ruthless on your way to the top.

You need a dragon hidden inside of you. When you need it, let the dragon out.

You must weed your negative thoughts every day and fertilize the positive ones.

You must see it for yourself before anyone else can.

You must follow your heart to succeed.

You must expect great things out of yourself before you can do them.

You may see me struggle but you will never see me quit.

You may say I'm in my own world but my own world is incredible.

You mature through experience, not years.

You lose some and win some. As long as the outcome is income.

You left when I had nothing. Stay gone. Don't come back when I have the world in my hands.

You know my name. Not my story.

You keep saying you'll start tomorrow but if you really wanted it you'd start today.

You just got to play the cards that you were dealt with and make the most out of life.

You have to work hard for what you want and twice as hard to keep it.

You have to know you're going to be successful, even if you're just starting.

You have to get up every morning and tell yourself: "I can do this".

You have to fight through some bad days to earn the best days of your life.

You have to fight for what you want.

You have to be crazy. Crazy enough to know you can achieve anything.

You have the power to change your life. The question is have you made the decision?

You have it in you. It's in you.

You have a choice between a great attitude or a bad attitude. Easy choice.

You gotta spend money to make money.

You get what you earn, not what you feel you deserve.

You either get bitter or you get better.

You don't need everything to enjoy life. You already have life to enjoy everything.

You don't win the silver. You lose the gold.

You don't need a large crew to be successful.

You don't mind celebrating other people's success when you know you're a winner too.

You don't have to trust everyone. Trust yourself in trusting the right people.

You don't have to tell me everything. Just don't lie to me.

You don't drown by falling into the water. You drown by staying there.

You don't always need a plan. Sometimes you just need to do it.

You do not wake up today to be mediocre.

You do it because making yourself proud is one of the best feelings in the world.

You could call it a failure but I prefer the term learning experience.

You change the world by your example, not your opinion.

You can't just feel the gratitude, you have to express it!

You can't get fruit from a seed you just planted. Don't give up, your seed needs time to grow!

You can't be a winner with the mindset of a loser.

You cannot succeed by yourself. It's hard to find a rich hermit.

You cannot share your visions with those who are blind to their own.

You cannot evade the responsibility of tomorrow by evading it today.

You can't win in life if you're losing in your mind.

You can't win in life if you are losing your mind.

You can't stop somebody who knows where they're going.

You can't stop somebody who has decided they're going to win.

You can't rush something you want to last forever.

You can't reach what's in front of you until you let go of what's behind you.

You can't put a limit on anything. The more you dream, the further you get.

You can't pour from an empty cup. Take care of yourself first.

You can't please everyone, so don't try. Focus on yourself above all.

You can't have a million dollar dream with a minimum wage work ethic.

You can't do epic work with basic people.

You can't do epic stuff with basic people.

You can't change how people feel about you, so don't try. Just live your life and be happy.

You can't beat a person who never gives up.

You can. End of story.

You can watch me, mock me, block me or join me. What you can't do is stop me!

You can trade hours for dollars or ideas for millions.

You can make money or you can make excuses. You can't make both.

You can have, do, or be anything you want in life.

You can do 99 things for someone and all they'll remember is the one thing you didn't do.

You can be a good person with a kind heart and still say no.

You can always find the light on a dark day.

You become what you believe.

You become stressed the moment you forget you are blessed.

You attract what you think and receive what you believe.

YOU attract what you fear. Oh my GOD, I'm so scared of \$5 billion dollars!

You attract what you are. If you want great, then be great.

You are worth it! Don't let anyone tell you otherwise!

You are what you do, not what you say you'll do.

You are what you believe so think accordingly.

You are the only one who can create the life you deserve.

You are the CEO of your life. Some people need to be hired. Some people need to be fired.

You are the best part of my day.

You are the average of who you choose to be around. Choose wisely.

You are special. Take action and live the life you always dreamt of.

You are only limited by the limits you create.

You are not stuck where you are unless you decide to be. Isn't that an eye opener?

You are more than good enough.

You are amazing and wonderfully created, build on this.

You are afraid of being different. I am afraid of being the same.

Yesterday's homeruns don't win you today's games.

Yesterday I was crazy. Today I was misunderstood. Tomorrow I'll be a genius.

Would your 8-year-old self be proud of you right now?

Would you rather have a great idea or a great experience?

Worrying doesn't take away tomorrow's troubles. It takes away today's peace.

Worrying does not empty tomorrow of its troubles. It empties today of its strength.

Worry is a misuse of your imagination.

Worry about loving yourself, instead of loving the idea of other people loving you.

Working on yourself is not selfish.

W-O-R-K. The most feared 4 letter word!

Work while they party. Hustle while they sleep. See the difference after five years.

Work until your idols become your rivals.

Work until you no longer have to introduce yourself.

Work to live instead of living to work.

Work like there is someone competing 24 hours a day to take it all away from you.

Work hard. Make money. Have fun.

Work hard. Have fun. Make history.

Work hard, be kind, and amazing things will happen.

Work hard till the doors of your car open in a vertical way.

Work hard now, relax hard later.

Work hard in silence. Let your success make the noise.

Work for the moment you can finally say "I made it".

Work for it more than you talk about it.

Work for a cause, not for applause. Live life to express, not to impress.

Wonder is the beginning of wisdom.

With the right mentorship and team, the possibilities are endless!

Wisdom knows when to stay patiently silent.

Winning isn't everything. It's the only thing.

Winners never quit.

Winners focus on winning. Losers focus on winners.

Winners always find a way to win.

Will. Ambition. Discipline.

Why do we only rest in peace? Why don't we live in peace too?

Why do people have High Definition TVs but Low Definition dreams?

Whoever is trying to bring you down is already below you.

Who cares about stuff people say that they don't have the balls to say it to your face?

Whether you succeed or not is up to you. Not anyone else.

Where there's fire, there's desire.

Where there is a will, there is a way.

Whenever you find yourself doubting how far you can go, just remember how far you have come.

Whenever you feel like giving up, think of all the people who would love to see you fail.

When your why is big enough you will find your how.

When your mindset changes so will your money!

When you're chasing the wrong things, you give the right things a chance to catch up with you!

When you write the story of your life, don't let someone else hold the pen.

When you wish good for others, good things come back to you. This is the Law of Nature.

When you think about giving up, remember why you started.

When you stop looking, it will come.

When you stop chasing the wrong things, you give the right things a chance to catch you!

When you see how fast the dead are forgotten you stop living to impress people!

When you lose your excuses you find your potential.

When you look for money, you get rich. When you look for legacy, you get wealth.

When you look back at your life, don't you want to say you had the courage to take that risk?

When you live your life by poor standards you inflict damage on everyone who crosses your path.

When you learn how much you're worth you'll stop giving people discounts.

When you know your worth, no one can make you feel worthless.

When you judge me without knowing me, you do not define me. You define yourself.

When you give up someone else is still going.

When you find good people, keep them close.

When you finally find someone you can have an actual conversation with.

When you feel like quitting, think about why you started.

When you don't care what anyone thinks of you... you have reached real freedom.

When you become a diamond you will see why life pressured you.

When you ask for help they laugh. If you do it yourself they hate. So, do whatever you want!

When you are optimistic, your risk tolerance levels increase – You are less afraid to take risks.

When things aren't adding up in your life start subtracting.

When they say you've changed... thank you.

When they say you can't do something, just smile. It will drive them crazy.

When they call you crazy, remember, great ideas don't come from average minds.

When their bio says "Social Media Expert" and their only like is their own...

When something has gone, something better is coming.

When something goes wrong in your life, just yell "plot twist!" and move on.

When someone says you can't do it, do it twice and take pictures.

When people you don't know hate you that's when you know you are best.

When people you don't even know hate you, that's when you know you're the best.

When people treat you like they don't care. Believe them.

When people show you who they are, believe in them.

When people say I can't do something. (choose laughing face photo)

When people ask me what I do, I say: Whatever it takes.

When my circle got smaller, my vision got clearer. There's strength in loyalty, not numbers.

When life throws you a rainy day, get outside and dance in the puddles.

When life puts you in tough situations, don't say "why me" say "try me".

When life hands me lemons I plant the seeds and start a multimillion dollar lemonade business.

When life gets harder challenge yourself to get stronger.

When I am silent, I have thunder hidden inside.

When everything seems to go against you, remember a plane takes off against the wind, not with it.

When every action has a purpose, every action has a result.

When another crew thinks they can compete but you and your crew know you are the best.

When all else fails... smile.

When achieving your goal is more important than partying, welcome to the 2% club.

When a flower doesn't bloom, you fix the environment in which it grows, not the flower.

What's stopping you? Work for your dreams!

Whatever you want to do, do it now. There are only so many tomorrows.

Whatever you are, be very.

Whatever you are going through, you don't have to go through it alone.

Whatever makes you weird is probably your greatest asset.

What you think of yourself is much more important than what other people think of you.

What you seek in life is not behind you, it is in front of you.

What you plant now, you will harvest later.

What you have done is nothing compared to what you can do.

What you do today can improve all your tomorrows.

What would you do if you weren't afraid?

What would you do for work if money wasn't an object?

What we think we become.

What we fear doing most is usually what we most need to do.

What people think of me is none of my business.

What is coming is so much better than what is gone.

What does not kill you only makes a great story to tell later.

What consumes your mind controls your life.

What comes easy won't last. What lasts won't come easy.

Well done is better than well said.

Welcome to the karma café. There are no menus. You will get what you deserve.

Wealth is the ability to fully experience life.

Wealth is not about having a lot of money, it's about having a lot of options.

We try to hide our feelings but forget our eyes speak.

We stopped checking for monsters under our beds when we realised they were inside us.

We may encounter many defeats but we must not be defeated.

We mature with the damage, not with the years.

We have one life. Have fun and make it the best life possible!

We either make ourselves miserable or we make ourselves strong. The amount of work is the same.

We do not remember days, we remember moments.

We cannot become what we want by remaining what we are.

We become what we think about most. That's the biggest lesson.

We attract what we are ready for.

We are what we think. So think health, wealth, happiness and success!

We all need somewhere we feel safe.

We all have 24 hours. Successful people use them. The rest abuse them.

We all fall. Only a few get back up.

We all fall down in life. The question is who gets back up?

Water your mind to grow your soul.

WATCH OUT! The easiest way to kill a big dream is to tell a small minded person.

Wasted time is worse than wasted money.

Wanting to succeed is not enough. You must expect to succeed, and act like it.

Wanting to be someone else is a waste of who you are.

Walk with the wise and become wise, for a companion of fools suffers harm.

Wake up with positivity, passion and purpose!

Wake up with determination. Go to bed with satisfaction.

Wake up with a goal or go back to sleep.

Use your smile to change the world. Don't let the world change your smile.

Until you change your thinking you will always recycle your experiences.

Unexpected friendships are the best ones.

Understand your worth. Value your life. Appreciate your blessings.

Underestimate me. That'll be fun.

Turn your biggest problems into your greatest victories.

Turn off your phone, disconnect from the world and reflect upon your life.

Turn left when everybody else turns right.

Try to find a way – not another excuse. You can do it if you really want to!

Trust yourself. You know more than you think you do.

Trust me. You can do it.

Train your mind to see good in every situation.

Tough times never last but tough people do.

Too often people sleep through their wake up call - wake up to your calling!

Too many people spend money they haven't made yet.

Too many people just want a piece of the pie instead of wanting the recipe!

Too many people are hungry for attention but not hungry to succeed.

Too many of us are not living our dreams because we are living our fears.

Today's struggles lead to tomorrow's successes. Never quit. Never give up.

Today's struggle will be tomorrow's strength.

Today they love me. Tomorrow they hate me. Both days I get paid.

Today is your day.

Today is another chance to get better.

Today is always the most productive day of the week.

Today and every day, don't forget there is always something to be thankful for.

To whoever reads this: I hope something great happens to you today.

To the world you may be one person but to one person you may be the world.

To succeed you must be as fierce and relentless as the sharks of the ocean.

To make a difference, challenge to be the difference.

To guarantee success, act as if it were impossible to fail.

To get something you never had, you have to do something you never did.

To get rich you have to be making money while you sleep.

To change your life you need to change your priorities.

To be yourself in a world constantly trying to make you someone else is an accomplishment!

To be the best I had to work harder than everyone else.

To be is to do.

Timing, perseverance and 10 years of trying will eventually make you look like an overnight success.

Time is limited! But it compounds the outcome of your decisions and actions.

Time is a wonderful way of showing us what really matters.

Throw me to the wolves and I'll return leading the pack.

Through the ashes of my monumental failure shall rise the empire of my success!

Three choices in life – give up, give in or give it your all.

Those who judge will never understand and those who understand will never judge.

Those who don't jump will never fly.

Those walls you put up aren't keeping us out, they're holding you back.

Those at the top of the kingdom never got there by following the crowd.

Think positive, be positive and positive things will happen.

Think of the naysayers who doubted you... Now go dominate!

Think like a millionaire. Hustle like you're broke.

Think big! Get big!

Things will get better. Maybe not today, maybe not tomorrow. But they will.

Things turn out best for people who make the best out of the way things turn out.

Things may happen for a reason, but sometimes things happen to give you a reason.

Things are going to get rough. Things are going to be challenging. It's part of the process. Embrace it!

They'll keep saying you can't do it. Your job is to keep proving them wrong.

They'll ignore you now, but trust me, they'll need you later.

They'll doubt you then act like they supported you when you get it.

They will only laugh at your dream until you start getting paid.

They told me to get a real job. Now they're asking me for a job.

They told me I would never get this far. They were right, I got even further.

They told me I was different. The best compliment ever.

They say money can't bring you happiness but I can't just take their word for it I gotta see for myself.

They say I've changed. As if I've worked so hard to stay the same.

They never thought I would get this far. They were right, I got even further.

They laughed at my dreams. Now I laugh at their lifestyle.

They laugh at your dreams. Until you start making money.

They laugh at you because they have no idea what your capable of.

They laugh at me because I'm different. I laugh at them because they're all the same.

They hate me because it's easier than beating me.

They don't miss you when you're gone, they miss you when you're doing better.

They call us dreamers but we're the ones who don't sleep.

They ask me where I'm going. I tell them "straight to the top".

They are talking about you because if they talked about themselves, nobody would listen.

They are hating but they're also taking notes.

They always come back. Especially when you have moved on.

There's no such thing as a product or service business. Every business is a people business.

There's no shortage of money. Just a shortage of big thinkers.

There's nothing wrong with staying small. You can do big things with a small team.

There's no shortage of remarkable ideas, what's missing is the will to execute them.

There's an entire army right behind you. There's freedom in knowing just that.

There's 3 choices: Give up, give in, or give it all you got.

There will never be a perfect time to start. Why not start today?

There will be obstacles, doubters and mistakes. But with hard work there are no limits.

There will be doubters. There will be haters. Then there will be you, proving them wrong.

There will be bad days and many more good ones!

There is so much to see and experience in this world. Make it your business to soak it all in.

There is only one way to avoid criticism... do nothing, say nothing and be nothing!

There is only one thing I want out of life. That is everything.

There is nothing stopping you from trying something new except your excuses.

There is no time for BS when building an empire.

There is no elevator to success. You must take the stairs.

There is no competition. There is only you.

There is no "Plan B" for passion.

There is more suffering in never chasing your dreams than in the work it takes to achieve them.

There is always a way. If there isn't, create one.

There is a beast in every man and it stirs when you put a sword in his hand.

There are two rules for success. 1. Never reveal everything you know.

There are two days of the year you can do nothing about - yesterday and tomorrow. Live for today.

There are some things you can only learn in the storm.

There are people who talk and then there are people that do.

There are people secretly wishing for your downfall. Don't let them win.

There are no speed limits on the road to success.

There are no shortcuts to any place worth going.

There are far better things ahead than any we leave behind.

There are 7 billion people in the world. Don't let one ruin your day.

The wrong people always teach you the right life lessons.

The worst thing you can be is the same as everyone else.

The worst goal is to set a realistic goal.

The world is yours for the taking.

The world is your playground., Dominate it or be dominated.

The world is full of knowledge, don't restrict yourself with school or college.

The world is changed by your example, not your opinion.

The way you treat a quarter is the way you'll treat a million dollars.

The way to get started is to quit talking and begin doing.

The watch. They hate. Then they copy.

The truth is like poetry... and people hate poetry.

The true measure of success is by the number of times you emerged in failure.

The true adventure is when you grow in life rather than having life pass you by.

The trouble is you think you have time.

The time will never be right and the conditions will never be perfect. You must take action.

The time to relax is when you don't have time for it.

The thought of giving all your time to a job should make you sick to your stomach.

The things you take for granted someone else is praying for.

The thing about smart people is they sound crazy to dumb people.

The struggles come along to make you stronger. It's not a "Why Me" thing. It's a perspective thing.

The struggle you're feeling today is developing the strength you need for tomorrow.

The smarter you get, the more you listen and the less you speak.

The sky was never the limit.

The sky is the limit. But not for me.

The secret to success: you have to want it more than the other person and be willing to die for it.

The secret of getting ahead is by getting started. Who's ready to get started?

The secret of change is to focus all of your energy not on fighting the old but on building the new.

The same boiling water that softens a potato also hardens the egg.

The sad truth is nobody ever got rich working 9 to 5.

The s\*\*t in your life is the best fertiliser to help you grow!

The road to success and the road to failure are almost exactly the same.

The right people don't drain away your energy.

The results can be mind blowing when you combine focus and determination.

The rent on success is due every day.

The reason why we can't let go of someone is because deep inside we still hope.

The reason I work is because excuses have never worked for me.

The question isn't who's going to let me? The question is who's going to stop me?

The quality of your thinking determines the quality of your life.

The problem is you are more concerned with the lives of celebrities than working on your own.

The problem is irrelevant. It's your response that matters.

The positive thinker sees the invisible, feels the intangible, and achieve the impossible.

The poorest man is not the one without a penny. The poorest man is the one without a dream.

The pessimist sees difficulty in every opportunity. The optimist sees opportunity in every difficulty.

The person you will be in the future is based on everything you do today!

The person I am today would like to thank the person I was 5 years ago for not giving up.

The past is my lesson. The present is my gift. The future is my motivation.

The past is a place of reference, not a place of residence.

The Past is a place of reference, not a place of residence.

The paid on Friday mentality will keep you poor. Level up and build residual income!

The only way to live like a king is to work like a slave.

The only time you should look down on someone is to help them up.

The only thing that works is work.

The only thing more fun than making money is seeing people you helped make money!

The only thing I'm committed to right now is bettering myself.

The only opinion of you that matters is yours!

The one who falls and gets up is so much stronger than the one who never fell.

The older I get the less patience I have for bullshit.

The mountains you are carrying you were only supposed to climb.

The most important things in life aren't things.

The most important step we will ever take is the first one out of our comfort zone.

The most effective way to do it is to do it.

The most common way people give up their power is by thinking they don't have any.

The more you want others to win, the more you win.

The more you seek the uncomfortable the more you will become comfortable.

The more you learn, the more you earn.

The money didn't change me. I changed for the money.

The moment you're ready to quit is usually the moment right before the miracle happens.

The moment you wonder if you deserve better, you do.

The moment you want to quit is the moment you need to keep pushing.

The moment you start acting like life is a blessing, it starts feeling like one.

The moment you feel like quitting is usually the moment you are about to break through.

The moment we stop challenging ourselves is the moment we stop growing.

The minute you think of giving up, think of the reasons why you held on so long.

The master has failed more times than the beginner has even tried.

The man who does more than he is paid for, will soon be paid for more than he does.

The man on top of the mountain didn't fall there.

The longer you're not taking action, the more money you're losing.

The longer you live in the past, the less future you have to enjoy.

The life you are living is a dream of millions. Value it.

The less you respond to negativity, the more peaceful your life becomes.

The law of attraction does not work without the law of action.

The key to success is to start before you are ready.

The key to success is action.

The key to failure is trying to please everybody.

The jealous will often credit your success to luck; it's easier than admitting they envy you.

Lower your standards for no one.

Love challenges and be intrigued by mistakes. Keep on learning 24/7!

Losing motivation can come from setting unrealistic expectations.

Losers quit when they're tired. Winners quit when they're done.

Looking back a year from today, I won't recognise myself. I will be the legend I was born to be.

Look inside my soul. See how bad I want it.

Look in the mirror. That's your competition.

Look for the best, prepare for the worst and take what comes.

Look for something positive in each day, even if some days you have to look a little harder.

Look at yourself in the mirror and tell yourself you can do this!

Look at the sky. Be the star to follow. Influence the world!

Live your life in a way that makes everyone remember you.

Live the life that people write novels about.

Live powerfully through action.

Live life on your own terms.

Live life in such a way that if somebody spoke badly of you nobody would believe it.

Live less out of habit and more out of intent.

Live as if you were to die tomorrow. Learn as if you were to live forever.

Limits only exist in your mind.

Limits are for those who need them.

Life's challenges are not supposed to paralyze you; they're to help you discover who you are.

Life was meant for god friends and great adventures.

Life is too precious for you to live it struggling. Let's make better choices.

Life isn't happening to you; life is responding to you.

Life isn't about finding yourself, it's about creating yourself.

Life is too short to spend time with people who suck the happiness out of you.

Life is too short to deal with bad food, cheap drinks and fake friends.

Life is too short to care what other people think.

Life is to be enjoyed, not endured.

Life is such a great teacher that when you don't learn a lesson, it will repeat it.

Life is so much brighter when we focus on what truly matters.

Life is short. Smile while you still have teeth.

Life is only as good as your mindset.

Life is only as good as your attitude.

Life is not a problem to be solved but as reality to be experienced.

Life is like climbing a downward escalator. If you stay put you go backwards.

Life is like a bicycle. To keep your balance you must keep moving.

Life is all about how you handle Plan B.

Life is about perspective.

Life is about give and take. Give your all and take full advantage!

Life is a big game we play.

Life is 10% of what happens to us and 90% how we react to it.

Life has two rules: #1 Never Quit #2 Always remember Rule #1.

Life has no remote. Get up and change it yourself.

Life doesn't give you what you want. It gives you what you work for.

Life doesn't get easier, you just get stronger.

Life changes. Sometimes best friends become strangers.

Life can go from zero to one hundred really quick and back down to zero. So be humble.

Life always offers a second chance. It's called tomorrow.

Let's be the perfect couple that everyone hates.

Let your past make you better, not bitter.

Let your faith roar so loud you can't hear what doubt is saying.

Let whoever think whatever. Just keep getting better.

Let them party. One day they will be working for you.

Let them hate, just make sure they spell your name right.

Let go of yesterday. Enjoy today and look forward to your future harvest.

Let come what comes, let go what goes. See what remains.

Legends start with a single move.

Leave the excuses behind. You won't need them where you're going.

Learn to trust the journey, even if you don't understand it.

Learn to fight alone.

Learn how to say no without explaining yourself.

Learn how to make money in your sleep or you'll work until you die.

Learn from the past but focus on the present.

Leadership is doing what is right when no one is watching.

Leaders don't force people to follow. They invite them on a journey.

Leaders don't create followers. They create more leaders.

Last name: Hungry First name: Always

Lack of follow through is a habit that will lead to failure.

Knowledge will give you power but character gives you respect.

Knowledge is knowing what to say. Wisdom is knowing whether or not to say it.

Knowledge is great but success rewards implementation.

Kill them with success and bury them with a smile.

Keep your mystery. Never let them figure out your next move.

Keep your face to the sunshine and you can never see the shadow.

Keep your circle small in numbers but high in value.

Keep working on the prototype and eventually you will get the floor model!

Keep smiling and one day life will get tired of upsetting you.

Keep people around who aren't afraid to tell you when you're messing up.

Keep moving forward. Every single day.

Keep it real or keep it moving.

Keep going. Everything you've ever wanted will become a reality.

Keep friends who say good things behind your back and bad things to your face.

Keep calm and let karma finish it.

Just because your struggling, does not mean you're failing.

Just because most don't make it, doesn't mean you can't.

Just because it took you longer than others, it doesn't mean you failed. Remember that.

Just because it isn't happening right now doesn't mean it never will.

Just because I'm not posting money or payment proof doesn't mean I'm not making money.

Jobs fill your pocket. Adventures fill your soul.

Jealousy is just a lack of self-confidence.

It's the possibility of having your dreams come true that makes life interesting.

It's not about ideas, it's about making ideas happen.

It's your road. Others can walk it with you but no one can walk it for you.

It's your life. Live it your way.

It's your Attitude not your DNA that determines your quality of life.

It's time to start living the life you've imagined.

It's time to show the world what you are made of.

It's the worst events in our lives which make us the people we thought we could never be.

It's simple. I want it. I go get it.

It's okay to lose people but never lose yourself.

It's okay to live a life others don't understand.

It's okay to feel beaten. Just never give up.

It's okay to be scared. Being scared means you're about to do something really, really brave.

It's okay to be different.

It's not who you are that holds you back, it who you think you're not!

It's not what you have that defines you, it's who you become.

It's not what we have in life, but who we have in our life that matters.

It's not the money, it's the lifestyle.

It's not the money I'm after. It's freedom.

It's not the lie that bothers me. It's the insult to my intelligence I find offensive.

It's not over until I win.

It's not just about being patient or being aggressive it's about knowing when to be which.

It's not how much money you make, it's how much money you keep.

It's not how big the house is, it's how happy the home is.

It's not an obsession. It's an ambition.

It's not about what hours you put in. It's about what you put into those hours.

It's not about waiting for the storm to pass, it's about learning to dance in the rain.

It's not a race. It's a journey. Enjoy the moment.

It's impossible to fail when you don't quit.

It's hard to stop someone who never gives up.

It's hard to do a really good job on anything you don't think about in the shower.

It's funny how 1 word, 1 mistake, 1 lie, 1 truth and 1 person can change your mood in 1 second.

It's easy to fool the eye but it's hard to fool the heart.

It's better to have nobody than somebody who is half there or doesn't want to be there.

It's better to cross the line and suffer the consequences than to stare at it for the rest of your life.

It's better to be slapped with the truth than kissed with a lie.

It's better to be a lonely lion than a popular sheep.

It's always best to be alone rather than be in bad company.

It's alright not to know the answers. They will come to you when you least expect it.

It's all about thoughts. Change your thoughts and you'll change your life.

It's all about attitude. Change your attitude. Change your life.

It will be hard but it's not impossible.

It takes the same amount of energy to believe as it does to worry.

It takes courage to grow up and become who you really are.

It takes a long time to build a reputation and a second to ruin it.

It only takes one person to make you a millionaire: you!

It no longer matters where you're from once you know where you're going.

It might take a year. It might take a day. But, what's meant to be will always find its way.

It is not wanting to win that makes you a winner. It is refusing to fail.

It is not how many ideas you have. It's how many you make happen.

It is better to fail in originality than to succeed in imitation.

It doesn't matter where I've been. It only matters where I'm going.

It doesn't matter how much you know. If you don't take action you'll never get anywhere.

It doesn't get easier, you just get stronger.

It costs £0 to think like a millionaire.

It can be done but you have to make it happen.

It always seems impossible until it's done.

It all starts with a dream.

It all begins and ends in your mind, What you give power to, has power over you, if you allow it.

Is is lonely at the top. That's why a Bugatti has only two seats and a bus has 50.

Investing is about determining where your money will multiply, not subtract.

Invest in yourself. It pays the highest returns.

Intelligence is the ability to adapt to change.

Instead of worrying about what could go wrong, start thinking about what could go right!

Instead of judging people by their past, stand by them and help repair their future.

Instead of complaining that the rosebush is full of thorns, be happy that the thorn bush has roses.

Inspiration meets you halfway. Action takes you to the top.

Inside every self-made man is a poor kid who followed his dream.

Inside every person is a beast just waiting to be unleashed.

Information + Application = Transformation.

Incredible things happen when you distance yourself from negativity.

In the end, you'll know who's fake, who's true and who will risk it all for you.

In the end we only regret the chances we didn't take.

In the end all I learned was how to be strong alone.

In order to take off you must go against the wind.

In order to succeed, we must first believe that we can.

In order to become extraordinary, one must rebel against being ordinary.

In life, there will be a lot of people who tell you "you can't". Ignore those people.

In case you need a reminder, you are amazing and all your hard work will pay off.

In business, not making a move is considered a move.

In a world where you can be anything, be yourself.

In a world full of Kardashians, be a Diana.

In a couple of years people will ask you how did you do it?

Impossible is just a word used by people with no motivation to succeed.

Imagine what you can build. Challenge your limits.

Imagination is what gives your mind flight.

I'm a strong believer in Networking, Marketing and Network Marketing.

If you're reading this, just know that as long as you don't break, you'll have a breakthrough.

If you're reading this trust & believe you're going to make it...

If you're reading this post, just know I appreciate having you in my life!

If you're hating, you are either bored, lonely, broke or all three. Get a life!

If your life just got harder, you probably levelled up.

If your life is tough you must be tougher.

If your dreams don't scare you, they aren't big enough.

If your actions inspire others to dream more, learn more and become more you're a leader.

If you've made your point, stop talking.

If you're willing to do the work, you can have anything.

If you're too focused on the destination, you'll miss the journey.

If you're tired of starting over, stop giving up.

If you're the smartest person in the room, you're in the wrong room.

If you're seeing this, I just want to thank you for your love and support.

If you're reading this I hope you become rich or just simply be where you want to be in life.

If you're reading this I hope something great happens to you today.

If you're not willing to risk the usual, you will have to settle for the ordinary.

If you're not losing friends you're not growing up.

If you're not excited by it, it's probably not the right path.

If you're not embarrassed by the first version of your product, you've launched too late.

If you're not doing what you love, you're wasting your time.

If you're life just got a little bit harder, it means you levelled up.

If you're born poor, that's not your fault. If you die poor then you only have yourself to blame.

If you're a work from home entrepreneur, you're a different kind of beast and I respect you!

If you want to reach your goals you must shrink the size of your "but".

If you want to do it, do it now. If you don't, you'll regret it.

If you want to change your life I got 3 words to motivate you, "JUST DO IT"!

If you want to change the world, change it by being positive, not negative.

If you want to be the best then marry the game.

If you want to be successful, you have to disappear for a while.

If you want to be successful, be prepared to be doubted and tested.

If you want to be remembered, do something memorable.

If you want to be powerful, educate yourself.

If you want to be a lion, you must train with lions.

If you want to achieve greatness, stop asking for permission.

If you want success you must follow your heart.

If you want something you've never had, you must do something you've never done.

If you want something you have to be relentless.

If you want something different you have to do something different.

If you want it, do what it takes to go get it. Otherwise, stop complaining.

If you want change in your life, you must turn up the heat and manifest what you desire!

If you wait to believe in yourself before taking action, You are doing it wrong!

If you truly want to change your life, you must first change your mind.

If you think you will go through life not making any mistakes, you are mistaken.

If you think like everybody else, you aren't thinking.

If you think in positive terms, you will achieve positive results.

If you think being an entrepreneur is risky, try working for 40 years and living off social security.

If you think achieving success is hard, try being broke. Now that's a hard life.

If you spend a fortune on sneakers but don't invest in yourself and in your future, you're a fool.

If you see a bandwagon, it's too late.

If you really want to do something you will find a way. If you don't, you will find an excuse.

If you quit once, it becomes a habit. Never quit.

If you quit now, what were you even fighting for?

If you only see what's wrong with the world there's something wrong with you.

If you never take the shot you'll never score.

If you never go after what you want you'll never have it.

If you look closely, most overnight successes took a long time.

If you know you can do better, then do better.

If you knew me yesterday, you don't know me anymore. I grow daily.

If you kick me when I'm down, you better pray I don't get up.

If you keep putting things off until tomorrow, before you know it years have gone by.

If you keep going, you won't regret it. If you give up, you will.

If you just make safe choices, you never really grow.

If you have to live with yourself anyways, you might as well pursue something worthwhile.

If you have time to be negative, you have time to be positive. Be positive.

If you have the same problem with everyone, you are the problem.

If you have good friends you have everything.

If you have a vision, you can change the world.

If you give up it means you never really wanted it.

If you get tired, learn to rest. Not to quit.

If you feel like you deserve better it's because you do.

If you dream of 60 minute lunch breaks and the last 15 mins before clocking out... that's a nightmare!

If you don't take risks you will always work for someone who does.

If you don't risk anything you risk everything.

If you don't make things happen then things will happen to you.

If you don't like me but still watch everything I do, you are a fan.

If you don't have confidence you will always find a way to lose.

If you don't have big dreams and goals you'll end up working really hard for someone who does!

If you don't fit in you're probably doing the right thing.

If you don't fight for what you want, don't cry for what you lost.

If you don't believe in yourself, why would anybody else?

If you do what you've always done, you'll get what you've always gotten.

If you do life the way you play Candy Crush you'd be guaranteed to win.

If you can't say something nice, don't say anything... especially to yourself... inside your own head.

If you can't stop thinking about it, don't stop working for it.

If you can't see the vision, the vision can't see you.

If you can't manage stress, you can't handle success.

If you can't handle stress, you can't handle success.

If you can still count your money, work harder.

If you can see it in your mind, you can hold it in your hand.

If you can make a dollar, you can make a million more.

If you can learn self-control you can master anything.

If you can dream it, you can do it.

If you believed in Santa Claus for 8 years, you can believe in yourself for 5 minutes.

If you believe in yourself, there is no one who can stop you.

If you believe in yourself enough and know what you want you're going to make it happen.

If you are persistent, you will get it. If you are consistent, you will keep it.

If you are not prepared to take risks, you can't expect to get results.

If you are absent during my struggle don't expect to be present during my success.

If what you're doing isn't duplicatable, then you're going to be doing it all yourself.

If wealth is your destination, tools required: Mindset + Path + Action

If we wait until we are ready, we will be waiting for the rest of our lives.

If today was the last day of your life, would you still do what you're about to do?

If someone treats you like a joke, leave them like it's funny.

If someone tells you, "You can't", they are showing you their limits, not yours.

If someone is strong enough to bring you down, show them you are strong enough to get up.

If size really mattered the elephant would be king of the jungle.

If people like you, they'll listen to you, but if they trust you, they'll do business with you.

If people aren't laughing at your goals, your goals are too small.

If people are talking behind your back, be happy you are the one in front.

If opportunity doesn't knock, build a door.

If not you, who? If not now, when?

If not today, when? If not you, who?

If money didn't exist would you still get up every morning and do what you do for a living?

If it's still on your mind, it's still worth taking the risk.

If it's still in your mind, it's still worth taking the risk.

If it's both terrifying and amazing then you should definitely pursue it.

If it doesn't add value to your life, it doesn't belong there.

If it comes, let it. If it goes, let it.

If I see something I want, I go get it. I don't wish for it, I work my ass off for it.

If I could have anyone in the world, it would still be you.

If I am still breathing I will never give up.

If everything was perfect, you would never learn and would never grow.

If being an entrepreneur means "changing peoples lives" then I'm in! Anyone else?

If at first you don't succeed, try doing what your coach said in the first place.

If anyone needs to believe in you, it needs to be you.

If a window of opportunity appears don't close the blinds.

Ideas are easy. Implementation is hard.

I'd rather give up some sleep, than give up on my dreams!

I've seen the bottom. Now I'm ready for the top.

I've never met a strong person with an easy past.

I've always loved the idea of not being what people expect me to be.

I've always believed if you put in the work the results will come.

I'm working on myself, for myself, by myself.

I'm too busy working on my own grass to notice if yours is greener.

I'm the one that's got to die when it's time for me to die, so let me live my life the way I want to.

I'm on a mission to build an empire and leave a legacy.

I'm old school. I still believe in respect.

I'm not working to be seen, I'm working to disappear.

I'm not working this hard to be the same person I was last year.

I'm not telling you it's going to be easy, I'm telling you it's going to be worth it.

I'm not special, I'm just a limited edition.

I'm not obsessed with the money, I'm, obsessed with the freedom.

I'm not here to play games. I'm here to dominate.

I'm not here to fit into your world. I'm here to make my own.

I'm not heartless, I just learned to use my heart less.

I'm not going to pretend to be someone I'm not. You can like me for me or you can leave.

I'm not bossy. I have leadership skills.

I'm in competition with no one. I hope we all make it.

I'm here to share the truth. The good, bad and the ugly.

I'm going to make the rest of my life the best of my life.

I'm convinced different people awake different beasts in you.

I'm coming for everything they said I couldn't have.

I'm an odd combination of really nice and don't mess with me.

I'm an animal even out of my element.

I'm actually very grateful some things didn't work out the way I once wanted them to.

I'll never start a fight but I'll never back down from one either.

I'll never forget where I came from but I choose to move forward.

I'd rather take the chance than wonder "what if".

I'd rather live one day as a warrior than one year as a coward.

I'd rather have a life of "oh wells" than a life of "what ifs".

I would rather work 16 hours for myself than 8 hours for someone else.

I would rather run with a few lions, than a thousand sheep.

I would rather die on my feet than live on my knees!

I win because I am not afraid to lose.

I win because I am not afraid of losing.

I will win. Not immediately. But definitely.

I will not quit until I'm living the life I once dreamt of.

I will fight for it. I will not give up. I will reach my goal. Absolutely nothing will stop me.

I will either find a way or make one.

I was raised to treat the janitor with the same respect as the CEO.

I want to see my whole team winning!

I want to be able to say I lived my life with no regrets.

I walk slowly but I never walk backwards.

I tried being normal once. Worst two minutes of my life.

I think that success is having fun?

I suffer from ambition. I am addicted to success and allergic to being average.

I stopped explaining myself when I realised people only understand from their level of perception.

I see. I grind. I get.

I respect people who tell me the truth, not matter how hard it is.

I respect anyone who has every reason to give up but continues to fight.

I respect a person who respects me when I'm not around.

I refuse to prove my worth to those who don't see it.

I only look back to see how far I have come.

I never tried to hide the fact my only goal was to be the best.

I never lie because I don't fear anyone. You only lie when you're afraid.

I never changed. I just see things differently now.

I need to spend a good night laughing too loud and eating too much with my best friends.

I need new haters. My old ones are starting to become my fans.

I may win and I may lose, but I will never be defeated.

I may suffer alone but I will rise as a champion.

I may not be where I want to be, but at least I'm not where I used to be.

I may not be there yet but I am closer than I was yesterday.

I may be peaceful but don't provoke the beast.

I love the smell of success in the morning.

I love the smell of possibility in the morning.

I love people who can make me laugh even when I don't want to smile.

I love my boss. PS: I work for myself.

I love listening to lies when I know the truth.

I love how my weekdays and weekends feel exactly the same. Freedom 24/7!

I like the person I am becoming.

I like my income to be passive. Only I determine what an hour of my life is worth.

I know you're tired. I know you're physically and emotionally drained. But you have to keep going.

I know what I want and I'm going to get it.

I know I'm on the right path because things stopped being easy.

I just want to get rich and tell my mum she can quit her job.

I honestly can't stand people who always have something bad to say about everyone.

I heard you're a player. Nice to meet you, I'm the coach.

I have never relied on luck.

I have an addiction: it's called winning.

I have absolutely no desire to fit in.

I hate math but I love counting money.

I had so many excuses for not succeeding & when I quit using them I started doing better.

I had no choice but to boss up and create my own lane.

I got 99 problems but am so busy building my empire they can wait.

I fear the day when technology overlaps with humanity. The world will have a generation of idiots.

I either dress like I'm going to a red carpet event or like I'm a homeless drug addict. No in-between.

I don't want a perfect life. I want a happy life.

I don't stop when I'm tired. I stop when I'm done.

I don't need your approval. That's for insecure people.

I don't need you to believe in me. I believe in me.

I don't need it to be easy, I just need it to be possible.

I don't need easy. I just need possible.

I don't need any part-time people in my life. You're either with me or you are not.

I don't manage time. I manage activities.

I don't know where I'm going from here but I promise it won't be boring.

I don't have haters, I have fans in denial.

I don't have a short temper. I just have a quick reaction towards bull shit.

I don't get lucky. I create my own luck.

I don't envy your success. I am inspired by it.

I don't care who the biggest fish in the pond is. I am an entirely different animal.

I don't care how hard it gets. I will never, ever give up.

I don't believe in luck. I believe in hard work.

I do have an advantage. I don't quit. Ever.

I do a thing called: "what I want".

I didn't change. You just never knew me.

I didn't become heartless. I just became smarter. My happiness will not depend on someone else.

I decided to be happy because it is good for my health.

I dare you to just be 100% yourself no matter what others think about you.

I dare you to just be 100% yourself no matter what others think about you.

I come from nothing so I appreciate everything.

I chase my dreams while you sleep because I'm a lion and you're a sheep.

I cannot emphasise how important it is to be kind to everyone in this often unkind world.

I can see the future because I am creating it.

I can is 100 times more important than IQ.

I can and I will.

I believed in me when no one else did.

I believe in myself so much that nothing is going to stop me.

I am willing to fail, yet I always succeed.

I am too positive to be doubtful, too optimistic to be fearful and too determined to be defeated.

I am not talented. I am obsessed.

I am not for everyone but since you're seeing this, I must be for you.

I am not ADD. I have entrepreneurs disease!

I am going to win.

I already know what giving up feels like. I want to see what happens if I don't.

I admire people who choose to shine after all the storms they've been through.

Hustle, or stay broke and continue to hate on the people out there grinding.

Hustle while they sleep.

Hustle beats talent when talent doesn't hustle.

Hustle 24/7 rather than slave 9 to 5.

Hurt me with the truth but never comfort me with a lie.

How you make others feel about themselves says a lot about you.

How you got to where you are right now is all in the details of your upbeat determination.

How you do one thing is how you do everything.

How willing are you to stretch yourself to get what you want?

How many success stories do you need to hear before you write your own?

How can you give me so much strength yet be my only weakness?

How can you expect to fly if you aren't willing to jump?

How bad do you want it?

Hope but never expect. Look forward but never wait.

Honesty is a very expensive gift. Don't expect it from cheap people.

Help people even when you know they can't help you back.

He who says he can and he who says he can't are both usually right.

He who is not courageous enough to take risks will accomplish nothing in life.

Having people who support you is a prerequisite for having a good and fulfilling life.

Have the courage to stand out, the strength to stand up and the confidence to stand tall.

Have patience. Everything is difficult in the beginning.

Have goals so big you don't know if you should tell people or not.

Have faith. Work hard. Remain consistent. Your day will come.

Have big dreams. You will grow into them.

Have a nice life. I'm done trying to be in it.

Haters will broadcast your failures, but whisper your success.

Haters only hate the things they cannot get and the people they cannot be.

Hard work, dedication and consistency are three words all entrepreneurs know well.

Hard work beats talent when talent doesn't work hard.

Hard times will always reveal true friends.

Happiness isn't getting all you want. It's enjoying all you have.

Happiness is an inside job. Don't leave it to outsiders.

Hang out with those who have a common future, not a common past.

Hang out with people who force you to level up.

5 by 5 rule – if it's not going to matter in 5 years, don't spend more than 5 minutes upset by it.

20 years from now you will be more disappointed by the things you didn't do than the things you did.

2 Rules. 1. Never reveal everything you know.

10 years from now you'll look back and say "damn I'm glad I hustled".

"I'm broke" or "I don't have time" should be your inspiration and not your excuse.

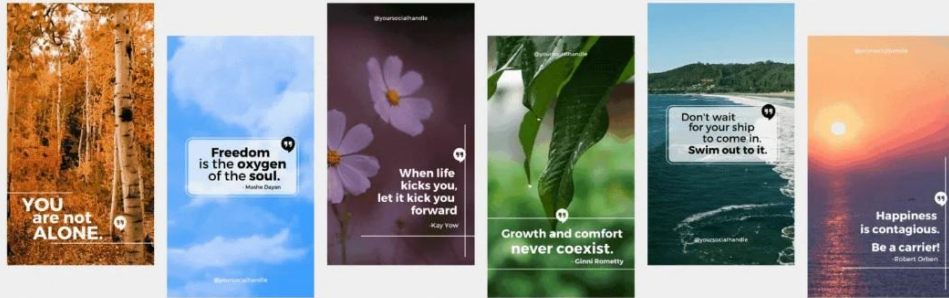

"Good" is the enemy of "great".

"Confidence" has no "Competition".
